About

Arcus Innovation Hub

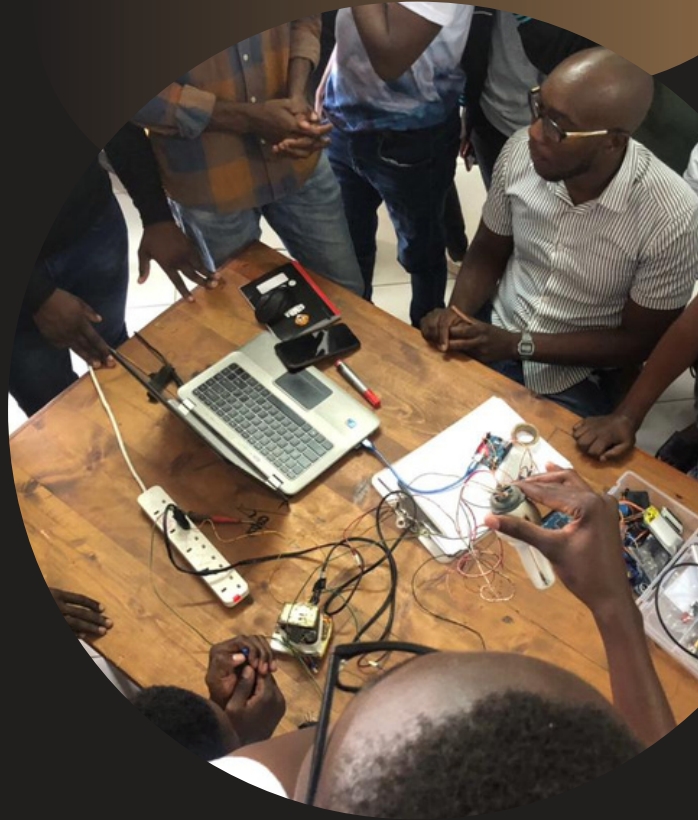

The Arcus Innovation Hub in Zambia is dedicated to fostering innovation, entrepreneurship, and industrialization. They provide practical learning opportunities, including PCB building and partnership development through university clubs, to support students and startups. The hub offers sponsorship for student projects, a dedicated workspace with internet access, and organizes an annual accelerator program. This program trains and mentors startups in various aspects of entrepreneurship, culminating in a pitching event where industry leaders evaluate and provide feedback. Selected teams receive financial support, resources, and ongoing mentorship to scale their businesses and contribute to Zambia's economic growth.

By emphasizing practical work, collaboration with university clubs, and providing resources and mentorship, the Arcus Innovation Hub aims to create a vibrant ecosystem of innovation and empower students and startups to drive technological advancements and sustainable solutions. The annual accelerator program serves as a platform for startups to develop their skills, gain valuable insights, and secure funding and support to turn their ideas into successful businesses. Through these initiatives, the hub envisions contributing to the industrialization of Zambia and the overall prosperity of the country.

Our Project

One of the notable projects undertaken by the Arcus Innovation Hub in partnership with the CBU Robotics Club at Copperbelt University (CBU) is the development of an electric car. The hub sponsors and supports the Robotics Club in their endeavor to build an innovative and sustainable electric vehicle.

The collaboration between the Arcus Innovation Hub and the CBU Robotics Club brings together the expertise and enthusiasm of students interested in robotics, engineering, and sustainable transportation. The hub provides financial sponsorship, resources, and a dedicated workspace with access to the internet for the club members to work on designing, prototyping, and constructing the electric car.

Mission and Vision

Our Mission:

The mission of the Arcus Innovation Hub is to foster a culture of innovation, entrepreneurship, and industrialization in Zambia. We aim to empower students and startups by providing them with the necessary skills, resources, mentorship, and networking opportunities to drive technological advancements, develop sustainable solutions, and contribute to the country's economic prosperity.

Vision:

Our vision is to become a leading innovation hub in Zambia, recognized for driving technological advancements, nurturing entrepreneurial talent, and supporting startups in developing sustainable solutions. We envision a future where the Arcus Innovation Hub plays a pivotal role in transforming ideas into marketable products, contributing to Zambia's industrialization, economic growth, and global competitiveness.

Our Objectives

1. To provide practical learning experiences and hands-on training to students, enabling them to develop technical skills and innovative problem-solving capabilities.
2. To support university clubs and facilitate cross-disciplinary collaboration, fostering an environment that nurtures creativity and entrepreneurial thinking.
3. To sponsor student projects and provide a dedicated workspace equipped with the tools and resources required for prototyping and product development.
4. To organize an annual accelerator program that trains and mentors startups in entrepreneurship, helping them build successful and sustainable businesses.
5. To create a strong mentorship network that connects startups with experienced professionals, offering personalized guidance and advice.
6. To encourage the development of innovative technologies, with a specific focus on electric cars and other sustainable solutions.
7. To forge strategic partnerships with universities, industries, other innovation hubs and governmental organizations to leverage additional resources and expertise.
8. To evaluate and improve the effectiveness of our programs continuously, ensuring their relevance and impact on the startup ecosystem.

Our Core Values

1. Innovation: We foster a culture of continuous learning and experimentation, encouraging creativity and innovative thinking to address real-world challenges.
2. Collaboration: We believe in the power of collaboration and teamwork, working closely with students, startups, universities, and industry partners to create a supportive ecosystem.
3. Impact: We are committed to making a positive impact on society by promoting sustainable solutions, ethical business practices, and responsible innovation.
4. Excellence: We strive for excellence in everything we do, maintaining high standards of quality, professionalism, and integrity.
5. Inclusivity: We embrace diversity and inclusivity, creating an environment that welcomes individuals from all backgrounds and perspectives.
6. Growth Mindset: We encourage a growth mindset, valuing resilience, adaptability, and a willingness to learn from failures and successes alike.
7. Empowerment: We empower students and startups to take charge of their ideas, providing them with the necessary tools, mentorship, and resources to succeed.
8. Sustainability: We are dedicated to promoting sustainable practices and technologies, aiming to create a positive impact on the environment and society.

Reach Out To Us

Through our mission, objectives, vision, and core values, the Arcus Innovation Hub aims to be a catalyst for positive change in Zambia's innovation landscape, driving progress, and contributing to the country's long-term prosperity.
